Dear Parent or Caregiver,

Richmond Public Schools will be administering the spring SOL Non-Writing End-of-Course (EOC) assessments to all middle school and high school students taking SOL courses from **May 31st-June 17th**. Specific test dates can be found below:

Dates	Grade	Assessment(s)	Students Testing
May 31	6-12	1st Block Testing	All students in grades 6-8 taking SOL math, English, history and/or science courses and middle school students taking high school courses. All students in grades 9-12 taking a required SOL math, English, history or science course semester 2 and term graduates in need of a verified credit. <ul style="list-style-type: none">• English 11 (EOC Reading)*• Algebra 1*• Algebra 2• Geometry• Biology*• Chemistry• Earth Science• US/VA History• World History 1• World History 2
June 1	6-12	2nd Block Testing	
June 2	6-11	3rd Block Testing	
June 3	6-11	4th Block Testing	
June 6	7	Make-Up Testing (History)	
June 7	8	Make-Up Testing (Science)	
June 8	7	Make-Up Testing (Math)	^Make-up testing will be held on a rolling basis throughout the testing window.
June 9	8	Make-Up Testing (Reading)	
June 10-17	6-8	Make-up Testing / Expedited Retakes*	*Students who earned 375-399 on their first attempt are eligible for expedited retakes.

The Virginia Department of Education (VDOE) created the Standards of Learning (SOL) assessments to measure the success of students in meeting the Virginia Board of Education's expectations for learning and achievement in reading, writing, mathematics, science and history/social sciences. The reading and math SOLs are also used to meet federal United States Department of Education (USED) accountability requirements. More information about VA SOLs can be found [here](#) or at www.doe.virginia.gov/testing/index.shtml.

To prepare for these assessments, students should:

- Get a good night's sleep
- Eat a healthy breakfast the morning of testing
- Arrive to school on time
- Attend tutoring sessions as recommended by their classroom teacher
- Refrain from bringing personal electronic devices into SOL testing rooms

Students wishing to practice using the SOL test application prior to their tests are encouraged to use the Virginia Department of Education SOL Practice Items found [here](#) or at <https://va8.testnav.com/client/index.html>.

Questions regarding this assessment should be directed to your school's testing coordinator, Michael Jamison at mjamiso2@rvaschools.net or Valenta Wade, Division Director of Testing, at vwade@rvaschools.net.

Sincerely,

David Hudson, Principal

Upcoming Events:

Military Events and Activities that took place last month:

*** Thank you so much for your support, Color Guard and Saber Team for a wonderful back to school Opening for Fox Elementary, you have done Franklin Proud.**

*** ON Friday 20 May at 1500-1600, NAVY PROMOTIONAL DAY at Franklin Military Academy.**

PURPOSE:

The purpose of NPD is to build and sustain strategic networks with universities, colleges, high schools, and youth groups to promote Navy awareness within the under-served and under-represented communities, while building a pool of Science, Technology, Engineering, and Math (STEM) talent. This is an informational session opportunity for the Navy to engage with diverse students and their influencers and make them aware of **scholarships** and **officer career opportunities** through Navy Reserve Officer Training Corps (NROTC) and other collegiate programs. Ultimately, we hope to provide youth with mentorship and knowledge of opportunities they might not otherwise be exposed to.

*** ON Wednesday 18 May 2022 at 1000, Ms. Roberta W. Keller, CEO and Founder of Alexis Advisors LLC will share her knowledge with students on budgeting basics and setting up a bank account.**

*** The Franklin Knighting Ceremony is to be now in June after SOL Testing. More to follow with the date on how we shall execute.**

Office of The Principal

* The Military Awards Ceremony for all high school cadets will now take place on 6 June 2022 at 1400 in the auditorium. Proper uniform is required. More to follow as we continue to monitor current COVID Protocols.

* JCLC will be held this year at Virginia Polytechnic Institute and State University, (VA Tech), from 26 – 30 June 2022. The objectives of the JROTC Cadet Leadership Challenge (JCLC) are: To provide a safe, healthy, and fun training environment that is both physically and mentally challenging. To provide hands-on training designed to develop leadership, discipline, teamwork, and self-confidence. We have extended this camp to also include STEAM activities and at the end of camp have a project display. This is open to all cadets from 8-11 grades. More data is forthcoming, as the camp is currently being redesigned.

*** TEACHER VOLUNTEERS WANTED for our JCLC Camp coming up in June. The Dates are 26-30 June. The Army will pay room and board and you will receive a stipend of \$750.00 for that week. You will be co-teaching subjects to over 386 cadets from across several states. It is a lot of fun and excitement just ask MAJ Paschall, MAJ Taylor, and CPT Nunez. Attached is the link to a video created at camp. If you have further questions, please do not hesitate to reach out to those individuals or me. Come join the EXCITEMENT!!!**

Below is further information about the program. We need you!!! MAJ Paschall is our lead teacher, thank you MAJ Paschall for being our lead and supporting JCLC!!

JROTC STEM Leadership Academy Teacher Professional Development Opportunity

The JROTC STEM Leadership Academy is a weeklong residential camp for high school students who have previously participated in the Army 4th Brigade JROTC program in their high school. The main purpose and goal of this program are to introduce students to the various fields of science,

Office of The Principal

technology, and engineering and experience a modified military environment so that they can become involved in STEM, ROTC and the Corps of Cadets as collegiate undergrads whether at Virginia Tech or otherwise, leading to careers in STEM. Participants spend half of their day in STEM-related activities including hands-on sessions, lab tours and they complete a design project, culminating in a showcase on the last day. The other half of the day is spent in military-related activities including high ropes challenge course, rappel tower, and archery. Military presentations led by the Corps of Cadets, ROTC, and the Army National Guard are also included in the programming.

Two of the STEM design projects will be led by K-12 teachers following training on May 21 at the DC Armory.

- **Adventures with Arduinos** (Technology/Engineering Project): We will be teaming as engineers to design, build, test, and improve objects controlled by Arduinos. These microcontrollers function via instructions created using the Arduino programming language (a subset of C/C++ programming languages). Teams will be working to design small-scale prototypes of an original idea, replicating or building a working model of a currently produced, or enhancing the design and/or functionality of a pre-existing application. Items will be made of simple and easy to work with materials for display purposes. Computer code will be written to control these items. Possibilities are endless! On Day 1, students will learn the components of working with Arduinos. The second day will be spent in a guided project, and on the final day they will create their own project. Participants will work in teams of two on days 1 & 2, and then be combined into groups of four for the final project. The curriculum was developed, and instruction will be led by Frank Leighton, Technology teacher with Radford City Schools, Danny Mathiesen, Virginia Tech Computer Science graduate student and Christina Martin, STEM specialist with Giles County Public Schools. All three have worked with CEED for many years on engineering projects for CEED's summer programs.
- **Biotech-in-Box Disease Spread** (Science/Technology Project): Students will be investigating how diseases spread and what methods can be used for diagnosis of disease. Now how can you relate this to real diseases? In groups, participants will be researching, relating information back to, and presenting on a disease. They should be thinking about several aspects of the disease while researching and presenting. How is it spread? How is it diagnosed? How is it detected/tested for? How is it treated? Are there any alternative STEM technologies associated with your disease? Additionally, they should include a demonstration related to the disease to help them better understand the disease. Days 1 & 2 will be spent learning and practicing the technologies, including protein electrophoresis, that allow scientists to diagnose and detect diseases. On the third day, in groups, they will research and prepare a presentation on a particular disease. The curriculum for this project is an extension

of the Virginia Tech Fralin Life Center's [Biotech-in-a-Box program](#), designed by Dr. Alexandra Hyler, the lead research scientist at Cytorecovery and a Virginia Tech grad. This program has made available complete kits for bringing biotechnology to high school and community college classrooms. Instruction will be led by Dr. Hyler and Shajaesza, a Biochemistry graduate student at Virginia. As with the previous project, both have been associated with CEED's summer programs for several years.

* Franklin has established a Cyber Camp partnered with Virginia Commonwealth University (VCU) this summer. The camp is scheduled for the end of July and will be open to all JROTC Cadets, from 8-12 grades. More to follow as details are being worked out at this time.

* Franklin Color Guard will support the graduation ceremony at ECPI on 10 June 2022 at 1330 hours.

* Franklin will support the Memorial Day Ceremony in Washington D.C on 26 May 2022.

.From Central Administration:

- **SURN Summer Professional Learning** – SURN at William & Mary's School of Education is offering teachers a variety of 5-week, online, asynchronous courses. Register for one or more summer events:

Deeper Learning: Unpacking the 5 Cs (July 5 - August 5)

For the Joy of Learning: Cultivating Student Engagement (July 5 - August 5)

Engaging Students In Meaningful Formative Assessment (July 5 - August 5)

Mentoring and Coaching Teachers 1: Defining the Rules (May 30 - July 1; can be standalone or taken with

Mentoring and Coaching Teachers 2: (July 5 - August 5; requires Mentoring and Coaching Teachers 1)

- **Essay/Speaking Contest** – The Virginia School Boards Association is holding a personal essay/speaking contest where the finalists will have an opportunity to present before an audience of more than 300 school board members and administrators at the **2022 VSBA Conference on Education** held at the Richmond Delta Marriott on **July 19**. We hope that this contest will bring out the very best in students' writing and speaking efforts and allow our attendees to witness examples of the bright, thoughtful, and accomplished students from around the Commonwealth. This year's topic is Food Security. This year, thanks to a generous donation from an anonymous sponsor, the top 3 finalists will each receive a **\$1,000 scholarship**. **Submissions** are open to all Virginia public high school students (**grades 9-12**), and is a great opportunity to share their unique voices as well as compete for funds to further their education. For more information on the contest and complete guidelines please view this [guidebook](#). For questions, please contact Brittany Moore, membership services coordinator, at brittany@vsba.org or by calling **434-295-8722 x7**.

- **RPS Stories in the News** – We all know that there are so many amazing people, programs, and events happening at RPS every day, but how can we make sure those stories are being shared with the greater Richmond community? Local news outlets are always interested in what's happening at RPS. If you know of an **innovative program or project with students**, or an **event that showcases the very best of RPS values**, share those with the **Department of Advocacy and Outreach**! We can help pitch the story to the media and who knows, maybe you'll be on the local news! Contact **Sarah Abubaker**, Associate Director of Advocacy and Outreach via email, text or phone (804-573-2699) with your ideas! Sarah can help facilitate interviews or filming.

Algebra II

Functions

Statistics

- AII.9 The student will collect and analyze data, determine the equation of the curve of best fit in order to make predictions, and solve practical problems, using mathematical models of quadratic and exponential functions.

Calculus – Riemann Sums, Integrals

Math Analysis

- MA.7 The student will perform operations with vectors in the coordinate plane and solve practical problems using vectors.

Science

6th Grade Science

- LS.3 The student will investigate and understand that there are levels of structural organization in living things. Key ideas include
- a) patterns of cellular organization support life processes;
 - b) unicellular and multicellular organisms have comparative structures; and
 - c) similar characteristics determine the classification of organisms.
- LS.6 The student will investigate and understand that populations in a biological community interact and are interdependent. Key ideas include
- a) relationships exist between predators and prey and these relationships are modeled in food webs;
 - b) the availability and use of resources may lead to competition and cooperation;
 - c) symbiotic relationships support the survival of different species; and
 - d) the niche of each organism supports survival.

Earth Science

SOL Review

Biology

- BIO.6 The student will investigate and understand that modern classification systems can be used as organizational tools for scientists in the study of organisms. Key ideas include
- a) organisms have structural and biochemical similarities and differences;
 - b) fossil record interpretation can be used to classify organisms;
 - c) developmental stages in different organisms can be used to classify organisms;
 - d) Archaea, Bacteria, and Eukarya are domains based on characteristics of organisms;
 - e) the functions and processes of protists, fungi, plants, and animals allow for comparisons and differentiation within the Eukarya kingdoms; and
 - f) systems of classification are adaptable to new scientific discoveries.
- BIO.7 The student will investigate and understand that populations change through time. Key ideas include
- a) evidence is found in fossil records and through DNA analysis;
 - b) genetic variation, reproductive strategies, and environmental pressures affect the survival of populations;
 - c) natural selection is a mechanism that leads to adaptations and may lead to the emergence of new species; and
 - d) biological evolution has scientific evidence and explanations.

Chemistry

- CH.6 The student will investigate and understand that the phases of matter are explained by the kinetic molecular theory. Key ideas include
- a) pressure and temperature define the phase of a substance;
 - b) properties of ideal gases are described by gas laws; and
 - c) intermolecular forces affect physical properties.
